

This product on Square is being used to test You want proof that:

- ✓ checkout works
- ✓ payment processes
- ✓ emails arrive
- ✓ download / access works

without risking real money.

Let's do it.

How to Run a \$1 Live Test in Square, Inc.

You will temporarily create a cheap hidden product, buy it yourself, confirm everything fires correctly, then delete it.

Think of it like a fire drill 

Step 1 – Create a temporary \$1 test item

In Square:

1. Go to **Items**
2. Click **Create Item**
3. Name it:
`TEST – Amazing Marriage Funnel`
4. Price = **\$1**
5. Choose **Digital item**
6. (Optional) upload the same file or access method as your real product
7. Save

Do **not** promote this publicly.

Step 2 – Create a checkout link

1. Open the item
2. Choose **Create payment link**
3. Copy the URL

This is the link you will test.

Step 3 – Buy it like a stranger

Here is the important part.

You must act like you are NOT the owner.

So:

- use a **different email address**
- open a **private / incognito browser window**
- pretend you know nothing

Now purchase it.

Pay the \$1.

Step 4 – What should happen (the success list)

After payment you should receive:

Immediately

- receipt email

Then

- instructions or download link
- access to your product

Check:

- does the link open?
- is anything confusing?
- are there typos?

Step 5 – Refund yourself

After confirming it works:

1. Go back into Square
2. Find the transaction
3. Click **Refund**

Money returns to your card.

Test cost = \$0 

Why this is powerful

After this test you will KNOW:

-  strangers can pay
-  delivery works
-  automation works
-  you are ready for traffic

Confidence skyrockets.

Pro Tip

If something fails, good!

Better you discover it than a customer.

After the test succeeds

You are officially in **SELL MODE**.

That means:

- publish reels
- drive DMs
- send link

No more hiding in setup.
